A message from Omer

Hi Grandma!
Thank you for the birthday present. The book about space is great! I read 20 pages last night and I didn't want to go to sleep.
Mom says we can visit you on Saturday. Can you make your apple cake? It's my favorite!
Love,
Omer

The Red Kite

1 Last Friday, Noa and her little brother Ben went to the beach with their dad. Ben had a new red kite. It was a gift from his uncle. The wind was strong, and the kite flew high in the sky. Ben ran with it on the sand and laughed.

2 Suddenly, the string* broke. The kite flew away over the sand and into some trees near the beach. Ben started to cry. "My new kite!" he said.
* string – חוט

3 Noa took Ben's hand. "Don't worry. We will find it," she said. They looked everywhere for an hour, but they could not find the kite. Then they saw an old man with a dog. The dog had something red in its mouth. It was Ben's kite!

4 The old man smiled and gave the kite back to Ben. "My dog Max loves to play with kites," he said. Ben was very happy. He said thank you and gave Max a big hug. On the way home, Ben said, "Next time, Max can fly the kite with us!"

Busy Bees

1 Bees are small insects*, but they are very important for people and for nature. There are many kinds of bees in the world. In this text, you can read about honeybees.
* insects – חרקים

2 Honeybees live together in a big group called a colony. A colony can have more than 20,000 bees! Every colony has one queen. The queen is the biggest bee in the colony, and her job is to lay eggs. Most of the other bees are workers.

3 Worker bees are very busy. Young workers clean the home and feed the baby bees. Older workers fly out to find flowers. They drink a sweet juice from the flowers called nectar**. They take the nectar back home and make honey from it. The bees eat the honey in the winter, when there are no flowers.
** nectar – צוף

4 When a bee flies from flower to flower, it also helps the plants. Small yellow pieces from the flower stick to its body and go with it to the next flower. This helps the plants make fruit and vegetables. Without bees, we would not have many of the foods we eat, like apples and cucumbers.

5 Today there are fewer bees than in the past. You can help them! Plant flowers in your garden or on your balcony, and never kill a bee. Bees are our friends.
