Gali's Diary

1 Sunday, July 6th
Dear Diary,
Today was my first day on Aunt Rina's farm. Mom and Dad are working in the city this week, so I am staying here for six days. The farm is big and green. There are cows, goats, chickens and two horses.

2 In the morning, I woke up at six o'clock! Aunt Rina gave me a basket, and we went to the chicken house. I collected twelve eggs. Then we fed the goats. One small goat ate my hat! Aunt Rina laughed and said, "Now he knows you."

3 In the afternoon, it was hot. I sat under a big tree and read my book. Later, my cousin Eli showed me how to brush the horses. Their names are Star and Lucky. I was a little afraid at first, because they are so big, but they were very quiet and nice.

4 Now it is nine o'clock, and I am very tired. I miss my parents a little, but I love the farm. Tomorrow Eli is going to teach me to ride Lucky. I can't wait!
Love,
Gali

The Dead Sea

1 The Dead Sea is a very special place. It is between Israel and Jordan, and every year thousands of tourists from all over the world come to visit it.

2 The Dead Sea is the lowest place on land in the world. It is more than 430 meters below sea level*. The weather there is hot and dry, and in the summer it is often 40 degrees!
* below sea level – מתחת לפני הים

נכתב ונבדק על ידי צוותי GOOL בגרויות ו-GuyAI · www.guyai.co.il

3 The water of the Dead Sea is about ten times saltier than the water in other seas. Because of all the salt, fish and plants cannot live in it. That is why people call it "dead". But the salt is also fun: when you go into the water, you don't sink**. You can lie on your back and read a newspaper!
** sink – לשקוע

4 Many people put black mud from the Dead Sea on their skin. They say it is good for the skin. You can also buy creams and soaps made from the salt and the mud.

5 Today the Dead Sea has a big problem. It is getting smaller every year, because less water comes into it from the Jordan River. Scientists are looking for ways to save it. Visit the Dead Sea soon – it is an amazing place!
