A: I was seven. My grandfather taught me. We played every Friday after dinner, and he always won!

A: When I was nine, I won my first game against him. He was very proud of me. After that, I joined the chess club at school.

3 **Q: How much do you practice?**
A: About one hour every day, after my homework. On the weekend I practice more, and sometimes I play online with kids from other countries.

4 **Q: What do you like about chess?**

* patient – סבלני

5 **Q: What are your plans?**
A: Next month I'm going to a big competition** in Tel Aviv. I want to win, of course, but the most important thing is to learn and have fun.

Sea Turtles

1 Sea turtles are very old animals. They lived on Earth at the time of the dinosaurs, more than 100 million years ago! Today there are seven kinds of sea turtles. Two of them, the green turtle and the loggerhead turtle, come to the beaches of Israel.

2 Sea turtles spend almost all their lives in the sea. They are very good swimmers, and some of them swim thousands of kilometers every year. They eat sea plants, small fish and jellyfish*.
* jellyfish – מדוזות

3 In the summer, the female turtle comes out of the water at night. She digs a hole in the sand and lays about 100 eggs in it. Then she covers the eggs with sand and goes back to the sea. She never comes back to see her babies.

4 After about two months, the baby turtles come out of the eggs. They are very small, and they run to the sea at night. Many of them don't get there, because birds and

other animals eat them.

5 Sea turtles are in danger today. People leave plastic bags on the beach and in the sea. Turtles think the bags are jellyfish, and they eat them. In Israel, volunteers walk on the beach in the summer, find the turtle eggs and protect them. You can help too: take your garbage home when you go to the beach!
