Text 1

A SPECIAL NEIGHBORHOOD*

- I** 1 In the USA, most people live far from supermarkets, gyms, and restaurants. To go to these places, most people need a car. So most families in America own a car. A lot of them own two or three cars. However, there is a special neighborhood in America where no one has a car. This neighborhood is called Culdesac.
- II** 5 Culdesac has shops, restaurants and a gym in its center. All the apartments in the neighborhood are near the center. Everyone who lives in Culdesac can easily walk or ride bicycles to the center. So they don't need to use a car.
- III** Culdesac also has a large park near its center. "All of us who live here take care of it together," says Julie Dent, who lives in the neighborhood. "It's a good way for me to meet my neighbors."
- IV** 10 The people in Culdesac like living there for many reasons. For example, they save a lot of money because they don't have cars. Also, there are lots of buses that go from Culdesac to other places. "People who live here take buses to their jobs. They also take buses to visit friends who don't live in Culdesac," says Julie. "It's not hard to live here without a car."

LITTLE LIBRARIES

A little library at a bus stop

- I 1 What do you do when you are waiting for a bus?
Maybe you text a friend or play games on your phone. But
in some bus stops, there is something else you can do. These
bus stops have shelves* with books on them. You can read
5 one of these books while you wait. You can also take books
home and keep them. All the books are free*.
- II People call these shelves with free books "little
libraries." Bus stops are not the only places that have
these libraries. You can see little libraries in parks or near
10 playgrounds. People give their own books to these libraries
because they want other people to read them.
- III Todd Bol built the first little library in 2009 in America. He built a small box from wood and
put it outside his home. Then he filled the box with books from his home. He told his neighbors to
take any books that they wanted.
- IV 15 Todd's neighbors asked him to build more little libraries. Then they filled these libraries with
books from their homes. People in other cities in America heard about these libraries. Then they
built their own little libraries. Now there are 200,000 little libraries in cities all over the world.
